About Me

I'm a first-year student passionate about building real-world tech products. Currently exploring web development (MERN stack) and AI integration, with a focus on creating impactful and user-friendly solutions.

Education

B.E in CSE Artificial Intelligence and Future technologies, Chitkara University, Rajpura, Punjab

(2025–2029)

1st Year

Class 12th – CBSE, Sacred Heart Senior Secondary School

(2024–2025)

Class 10th – CBSE, St. Kabir Public School

(2022–2023)

Skills

HTML

Python

CSS

Git

React.js (basic)

GitHub

Node.js (basic)

VS Code

JavaScript

Achievements

- Actively participating in hackathons and tech events
- Exploring startup ecosystems and product development
- Continuous self-learning in web and AI

Certifications and Licenses

Microsoft Azure Fundamentals (AZ-900) – Microsoft

- Cloud concepts, Azure services, pricing, and security

Microsoft Azure AI Fundamentals – Microsoft

- AI concepts, vision, NLP, chatbots

Leadership & Activities

EvolveAI – Graphics Team

- Organized/participated in many events
- Contributed to graphics for the club

ACM – Tech Team and Organising Team

Current Focus

- Strengthening MERN stack skills
- Learning AI integration (chatbots, automation)
- Building scalable projects

Soft Skills

- Problem-solving
- Fast learner
- Adaptability
- Team collaboration
